Settings Window Magnifier (Windows 10):

Start magnifier (press Start/ Windows key and +)

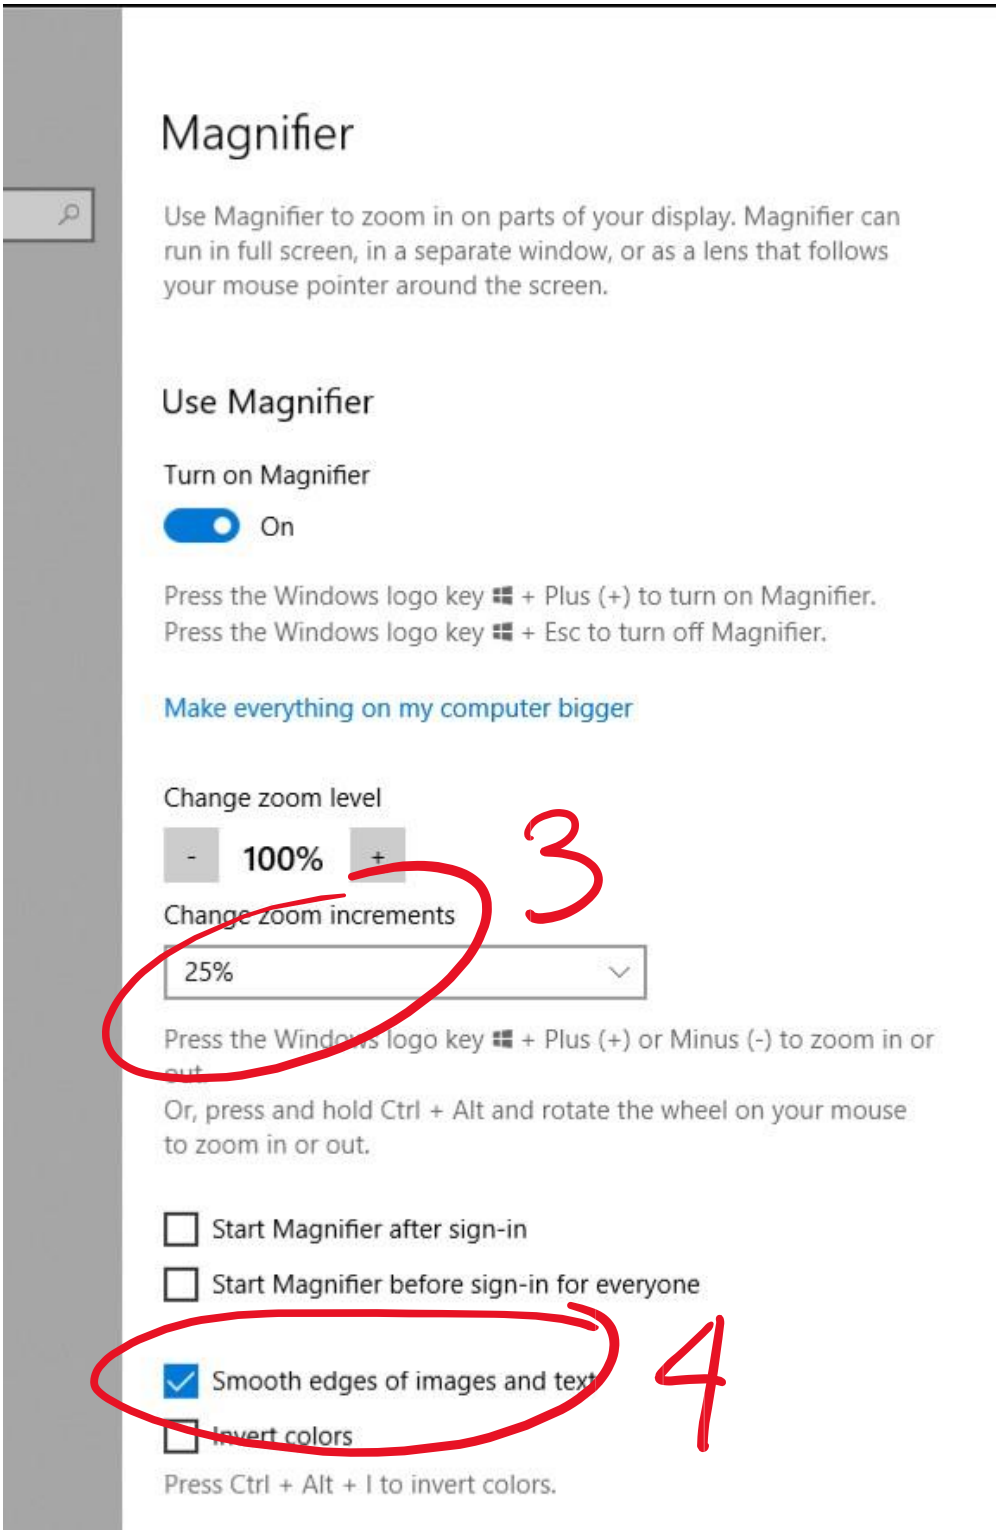

Click Settings (1). A small window shall appear. Kliptown on the left on “Go to settings” (2)

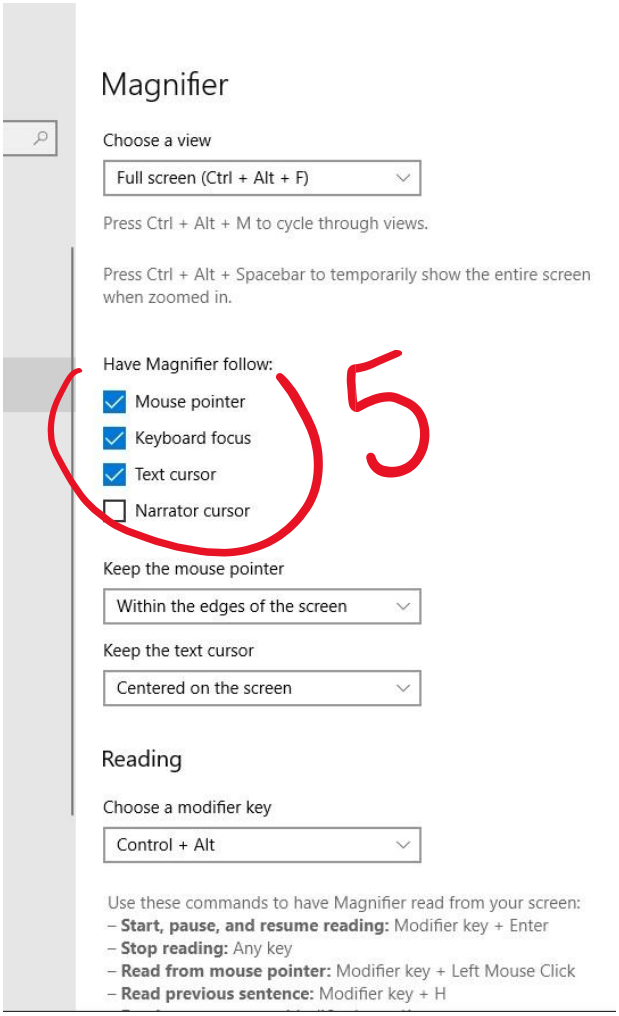

The Magnifier window will appear.

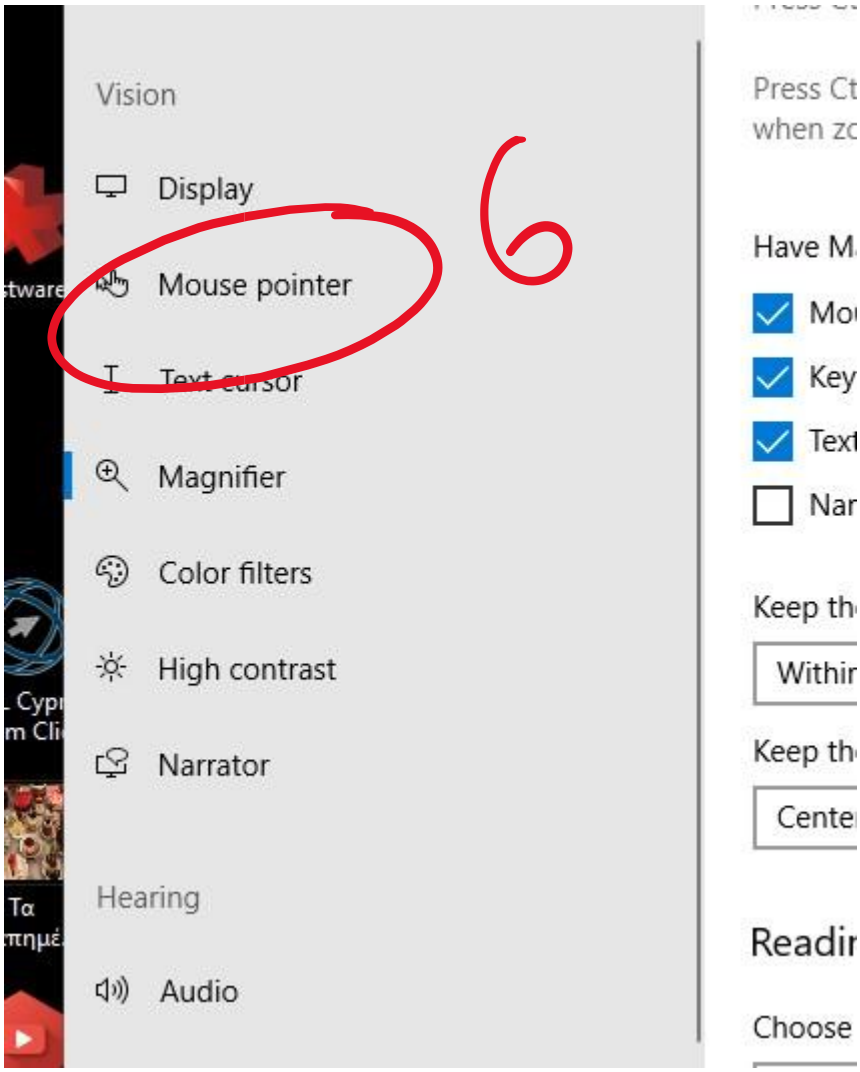

In: “Change zoom increments” (3) choose 25%.
then choose “Smooth edges of images and text” (4) if it’s not already selected.

Scroll down, and in the area “Have Magnifier follow”, choose the first 3 check boxes (5).

In order to change the mouse settings in the same window in the left pane, cchoos Mouse Pointers (6)

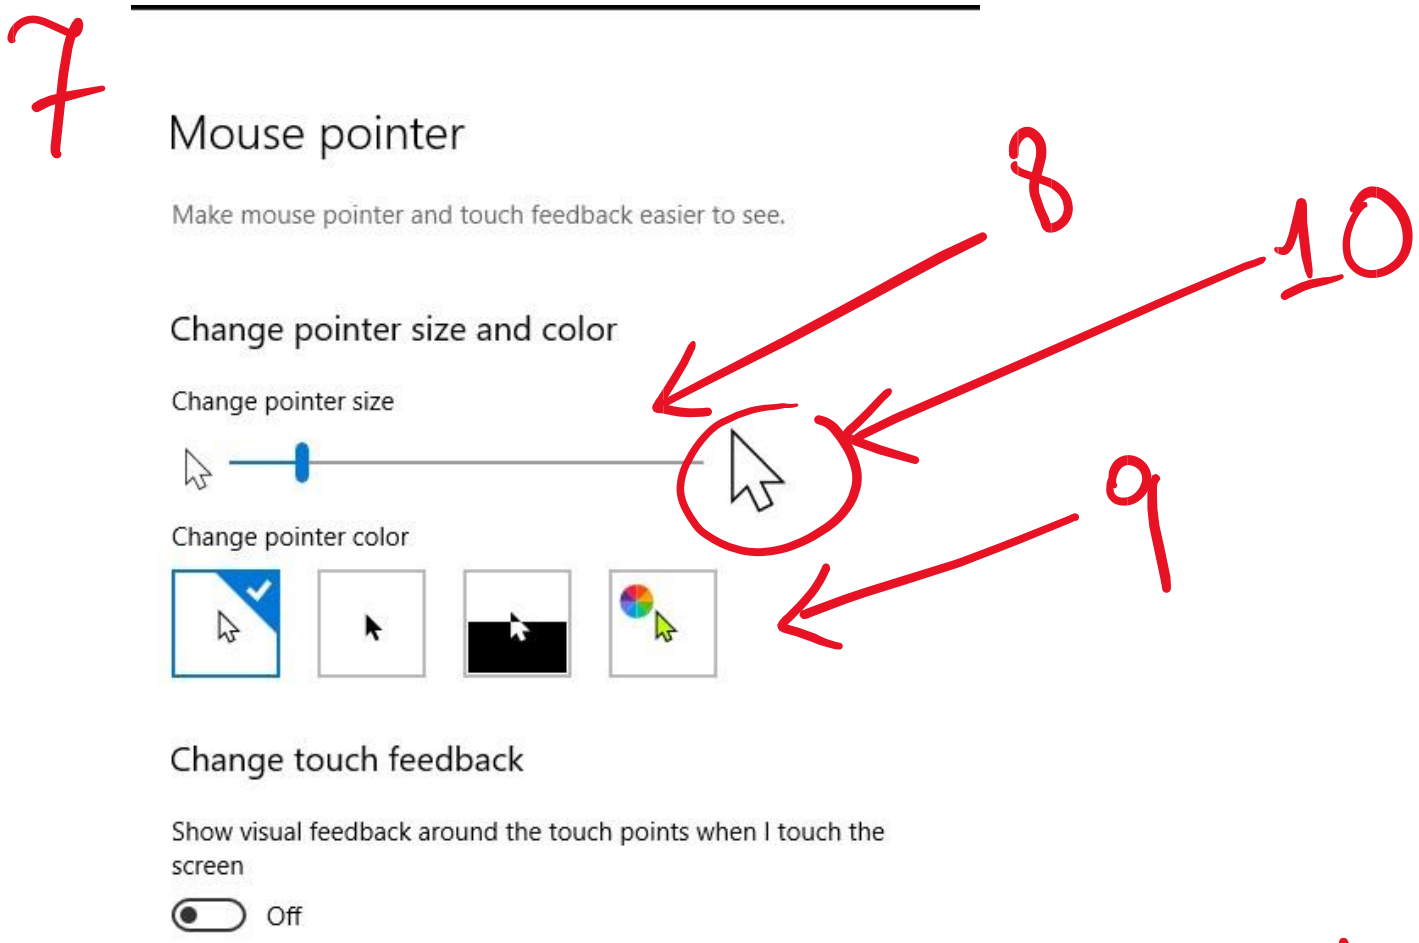

In the pain on the right the mouse settings Will appear (7).

Make the preferred choices:

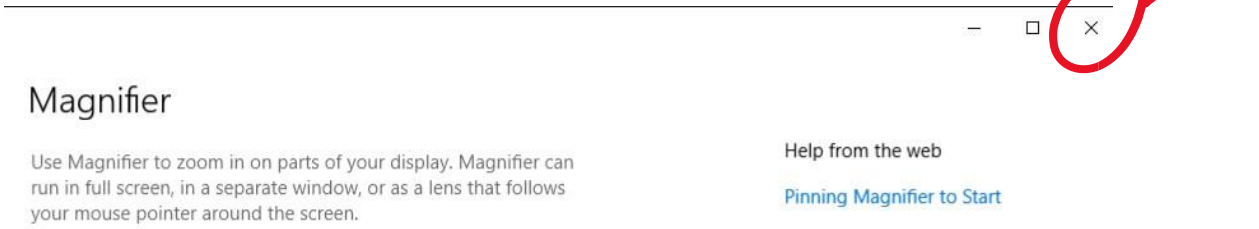

8- Change mouse cursor

9- Change colour (from left to right : white black transparent colour choices)

Every time you make a choice you will see it applied on you a mouse cursor (10).

Όταν τελειώσεις με όλες τις ρυθμίσεις κλείσε το παράθυρο (πάνω δεξιά -11).
